

'Peacock' by Hilary May Beach

'Heron in the Rain'
by Margaret Andrews

Dear Members

This is the third time we have produced a “Year Book” to showcase the work produced by members. Thanks go, of course, to all of you who have produced the pictures in this collection. What you are looking at is a record of the photographic skills that have been on display through the course of 2025. Space limitations mean that we can only include the images that won our different competitions through the year, but clearly they represent just the tip of the iceberg. I hope you enjoy looking through the pictures in this book: they show a wide variety of subjects and techniques and I hope they might inspire you to try something different in your photography in 2026.

Peter Osborne

Contents
